Dear Friends,

Metropolitan Community College turns 50 in 2024!

Things have changed quite a bit since "Metro Tech" opened its doors in 1974. Offering classes out of a temporary campus at 132nd and I streets, college employees worked the old-fashioned way in those days. Paper, pens and telephones were the technologies of choice. We started with about 2,700 students in degree programs and 4,000 more in noncredit classes, then quickly grew across three full-service campuses and a variety of satellite centers spanning the entire service area of Dodge, Douglas, Sarpy and Washington counties.

Today, our students enjoy state-of-the-art equipment and facilities that prepare them for their next steps in higher education or the workforce. Yes, paper and phones are still around, but most of today's work is done on computers and high-tech equipment.

MCC now serves thousands more students in credit and noncredit programs each year, yet our core values remain the same as they were in 1974: open access, affordability, responsiveness and relevance.

MCC did not go it alone to get to where we are today. It wasn't long after the College got its start that the MCC Foundation was established to walk alongside. Founded in 1977, MCCF has consistently connected community partners with meaningful ways to support students' success. Through scholarships, equipment donations, program and capital support, partners like you have made the difference for many.

The MCC Foundation's positive impact continues to take many forms.

A positive impact for students. In 2023, the MCC Foundation provided scholarships to nearly 500 students, including the College's 2023 Distinguished Alumna, Marie Ouedraogo, whose story illustrates the impact of your generosity. Thanks to her scholarship, Marie completed an associate degree in Prototype Design. Having honed her leadership skills here at MCC, Marie is putting them into practice as she volunteers to empower kids interested in math, science and technology. Each scholarship like Marie's has positive ripple effects as our students influence others to strive for and reach their goals.

A positive impact for the whole community. Neighborhoods and towns thrive when individuals reach their potential. MCC provides opportunities for all to learn and grow, starting with basic skills development, English literacy programs and high school equivalency (GED) education, building to workforce training and transfer education that prepares students for further education. Your support enables us to meet students where they are and take them where they want to grow.

Thank you for being a part of Metropolitan Community College and helping to make a difference in the lives of students. As we look toward our next 50 years, we are grateful to have passionate supporters like you preserving the mission of MCC for generations to come.

Sincerely,

Randy Schmailzl
President
MCC

Gerry Tomka
President
MCC Foundation

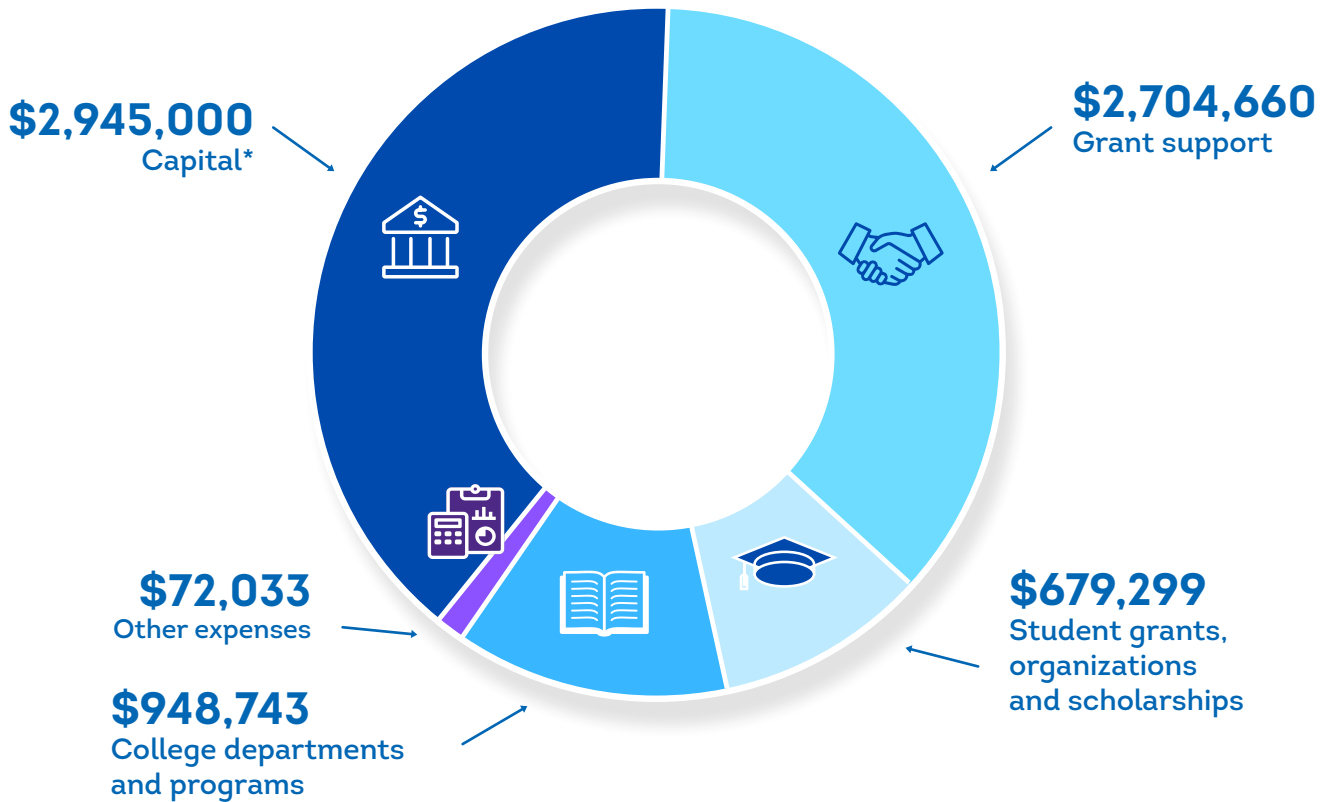

Amy Recker
Executive director
MCC Foundation

"I'm grateful that MCC boosted my ambitions and I gained my associate degree in Prototype Design. Moreover, I regained the focus on my education. It gave me the confidence to take on more leadership roles."
- Marie Ouedraogo

TOTAL REVENUES: \$4,584,686

TOTAL EXPENSES: \$7,349,735*

*Due to long-term duration of major capital projects, income recognition and corresponding expenditures often do not coincide within the same fiscal year.
